

Some local seabirds...

**PLEASE LEAVE ON THE BOAT – YOU CAN DOWNLOAD A COPY FROM OUR WEBSITE!**

Oystercatcher  
*Haematopus ostralegus*

- Huitrier pie
- Austernfischer
- Beccaccia di mare
- Ostrero
- Scholekster
- Strandskata

Ringed plover  
*Charadrius squatarola*

- Pluvier argente
- Kiebitzregenpfeifer
- Corriere grosso
- Chorlitojo grande
- Bontbekplevier
- Kustpipare

Cormorant  
*Phalacrocorax carb*

- Cormoran ordinaire
- Kormoran
- Cormorano
- Cormorán grande
- Aalscholver
- Storskarv

Shag  
*Phalacrocorax aristoteli*

- Cormoran huppe
- Krahenscharbe
- Marangohe
- Cormorán moñud
- Kuifaalscholver
- Toppskarv

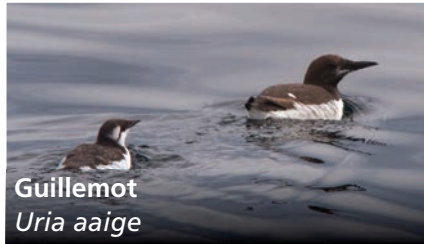

Gannet  
*Sula bassana*

- Fou de bassan
- Basstolpel
- Sula
- Alcatraz
- Jan van Gent
- Havssula

Manx shearwater  
*Puffinus puffinus*

- Puffin des Anglais
- Schwarzschnabel sturmtaucher
- Puffino
- Pardela pichoneta
- Noordse pijlstormvoge
- Mindra lira

Guillemot  
*Uria aaige*

- Guillemot de troil
- Trottellumme
- Ceffo
- Arao común
- Zeekoet
- Sillgrissla

Razorbill  
*Alca tonda*

- Pingouin torda
- Tordalk
- Gazza Marina
- Alca común
- Alk
- Tordmule

Puffin  
*Fratercula arctica*

- Macareux moine
- Papageitaucher
- Pulcinella di mare
- Frailecillo común
- Papegaaiduiker
- Lunnefågel

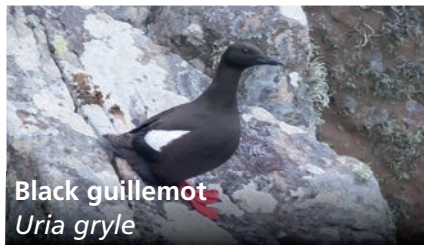

Arctic tern  
*Sterna paradisaea*

- Stern Arctic
- Kustenseeschwalbe
- Sterna rowdine di mare
- Charrán ártico
- Noorde stern
- Rodnabbadtarna

Fulmar  
*Fulmaris glacialis*

- Petrel fulmar
- Eissturm-vogel
- Procellana
- Fulmar
- Noordse stormvogel
- Stormfagel

Black guillemot  
*Uria gryle*

- Guillemot a miroir
- Gryllteiste
- Ceffo Nero
- Arao aliblanco
- Zwarte zeekoet
- Tobisgrissla

Kittiwake  
*Rissa tridactyla*

- Mouette tridactyle
- Dreizehenmowe
- Gabbiano terragnoia
- Gaviota tridáctila
- Drieteenmeeuw
- Tretaig mas

Great skua  
*Catharacta skua*

- Grand labbe
- Skua, große raubmöwe
- Stercorano maggiore
- Págaló grande
- Grote jager
- Storlabb

**PUFFINS**

Puffins breed at Staffa from mid April until late July. They nest in burrows on the cliff edges (shown as blue dots), north and south of the grassy hill marked here. Puffins spend most of their lives on the sea but may come ashore for visitors with patience and a bit of luck. The walk from the top of the stairs at the landing is about 400m and over a rough track. Please tell us if you don't think you'll manage and we may be able to take you to see them from the boat.
